

Inductive Distance sensors, Code- BAW000N

Balluff inductive Global sensors for object detection in metal areas are robust and reliable. With a wide range of over 500 variants, The object being sensed is often referred to as the Inductive proximity sensor's target. Different Inductive proximity sensor targets demand different sensors. an inductive proximity sensor always requires a metal target. Balluff offer the right inductive sensor for every application.

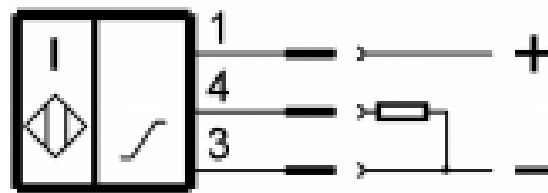

General Attributes

- Dimension : Ø 8 x 51.5 mm
- Connection type : Cable with connector, 0.20 m, PUR
- Cable diameter D : 3.00 mm
- Operating voltage U_b : 15...30 VDC
- Range : 0.5...1.5 mm
- Ambient temperature : -10...70 °C
- Housing material : Stainless steel
- No-load current I_o max. at U_e : 8 mA
- Installation : for flush mounting
- IP rating per IEC 60529 : IP67
- Approval/Conformity : CE, cULus, EAC

Application Notes

Position Detection
Speed Sensing
Limit Switching
Pulse Generation
Distance Measurement
And Many More.
