

FOOT SWITCH (ALUMINUM CAST), Code : CFS- 302

A foot-activated electrical switch that enables the operator to use both hands. A foot switch is a rugged switch which is operated by foot pressure. An example of use is in the control of a machine tool, allowing the operator to have both hands free to manipulate the work piece. The foot control of an electric guitar is also a foot switch.

General Attributes

- Rating : 15A-250VAC
- Type of switch enclosed & contact arrangement : CM-1704
- Cable type/ length: Accessory : Cable gland (No cable)
- Contact : 1A1B
- Action force : 3.2kg
- Material of Rind : Aluminum Cast

Application Notes

Foot switches are mounted on machines and plants in cases where operation using the hands is not possible. Depending on the environmental conditions and mechanical duty, differing versions of foot switches are used.

In the engineering industry, e.g. on presses, punching and bending machines as well as in sheet-steel processing.

Control of dentistry tools

Operation of logical or digital signals
