

## FOOT SWITCH (PLASTIC), Code : CFS- 01

A foot-activated electrical switch that enables the operator to use both hands. A foot switch is a rugged switch which is operated by foot pressure. An example of use is in the control of a machine tool, allowing the operator to have both hands free to manipulate the work piece. The foot control of an electric guitar is also a foot switch.

### General Attributes

- Metal : Plastic
- Designation : Mini foot switch Front end push
- Model : CFS-01
- Rating : 10A 250VAC
- Type of switch enclosed & contact arrangement : CMV-100D
- Cable type/ length : 0.5mm<sup>2</sup>, 3 C/1 meter~3 meter
- Contact : 1A1B
- Action force : 0.7kg
- Material of Rind : Plastic

### Application Notes

- ☐ Foot switches are mounted on machines and plants in cases where operation using the hands is not possible
- ☐ Depending on the environmental conditions and mechanical duty, differing versions of foot switches are used.
- ☐ In the engineering industry, e.g. on presses, punching and bending machines as well as in sheet-steel processing.
- ☐ Control of dentistry tools
- ☐ Operation of logical or digital signals
